AUCTION SALE OF COINS.

Rev. Mr. BIRD,

Dr. WRIGHT,

SOUTHERN BANKER.

FRIDAY AND SATURDAY AFTERNOONS,
SEPTEMBER 4, 5, 1908,
AT TWO O'CLOCK.

By LYMAN H. LOW.

14 EAST 23D ST., NEW YORK CITY.

I have in preparation an arrangement of the

MONTREAL SOU TOKENS.

It eliminates the puzzles of the 46 pieces and reduces them to "A. B. C." It is my intention to publish in October. With the view of revising rarity, I shall be pleased to hear from collectors who possess specimens of Breton 672, 673, 675, 676, 677, 681, 682, 689, 690, 696, 698, 701, 703, 706.

While it is too early to count the cost of the publication, — which I shall aim to have within the reach of all, — I am prepared to record orders, for the purpose of ascertaining the interest maintained in the series, and to guide the number of my limited edition.

LYMAN H. LOW.

August 1, 1908.

FOREWORD.

In presenting the Third Part of the Bird Collection, catalogued on the following pages, it seems proper to call the attention of purchasers to the fact that the quantities offered in this Cabinet are much greater than in any similar sale for the last twenty-five years, being more than thirty thousand pieces. Indeed, it is safe to say that in every series submitted, the coins here assembled exceed in point of numbers any hitherto catalogued for competition in the auction room.

While Mr. Bird fully appreciated those points in which so many collectors delight — the rarity, value, fineness or history of a coin — he found his pleasure in the acquisition of a cabinet which should contain so far as possible, every specimen or variety of the series in which he was interested. To this he devoted himself for about forty years; from the beginning until his very last purchase, this was the motive which guided his selections. Few can be named who were his equals in a general knowledge of the subject, and the nature of his researches made him unusually familiar with differences in types, etc. An unnoticed variety, whatever its condition, was to him far more attractive than a well-known piece in an uncommonly fine state of preservation. Thus he had accumulated the vast number of varying types which will be found listed on the following pages, but a detailed description of such varieties is of course impossible in the limits of a Sale Catalogue. Many examples of more than ordinary interest are therefore of necessity grouped with others well known to buyers.

* * * *

The collection of a Southern Banker — who prefers to withhold his name — is particularly strong in the U. S. Mint series, containing as it does many rare and choice examples in the various metals, gold, silver, nickel and copper. The central attraction, no doubt, is the Fifty Dollar octagonal gold piece — *the finest known example* — which has the further distinction of being the *small date* variety. Aside from the consideration of its rarity, as indicated by the List prices, its uncirculated condition with small date at once places it in the front rank of its class. A life-time may pass before its equal will be sighted. Other pieces in the Catalogue are worthy of special mention, but the limit of space for a Foreword seems to have been reached, and to enlarge upon the subject, where so many desirable examples in superb condition are presented, might very properly be criticised as needless.

UNITED STATES PROOF SETS.

Silver will tarnish when exposed for any time to light, even if wrapped in most kinds of paper, especially the grade used at the Mint. The sets here offered are brilliant, and mostly near perfection, but tarnish, and generally light, is present on some of the pieces in the sets. Those marked with a star * are in perfection. Purchasers receiving sets or pieces that they desire restored, can have them done free of charge by forwarding, with postage for return. Sold by the set.
